Looking forward to hearing from you! A lot of love. Woody Team Dec 29, 2020 version 3.3.0 Hope you had a great holidays, we spent some time in December polishing some features and improving the game for you. Thanks for your kind support. We like to hear from you. This game grabs you because filling those lines and disappearing is satisfying. This simplicity is encouraging. But they are. Then you throw in the competition! Suddenly you have more incentive to play! You don't need to choose your opponent. is. The computer sets you up with a proper competitor. You get to experience the adrenaline by trying to make the right moves, knowing that time is ticking away! If you run out if the moves, you'll have to wait for the clock to run out while your opponent keeps playing. But don't worry! You can still win because you've scored more points! I like that the ranking is swifter! I've already gotten into the second bracket of the beginning. It's a really fun game that keeps you trying to make and score better than before. It's a little addictive, I agree! I already enjoyed the original game. But I'm going to see it with this one! It's a time killer because the game showed you the benchmark you can get (winning more coins) if only you play a couple more games!) It has caught me on my web!!!! I've played tons of other puzzle games down through the years. I can honestly say, this game is by far the best out there. It's kept my interest for months now, more than any other puzzle game, and even any other non-puzzle game for that matter! There are many reasons why I love this game, and the combination of them all which makes it stand out more than any other. Here's my list: simple to play, you can learn from watching matches (absolutely love), real-time scoring, real-time matches with real people; If you lose, it's because you made the wrong moves, not because a computer opponent is arranging the result all the time, and which really makes it a great game, and one that I want to play, is the fact that you don't have to buy things all the time to enjoy the game 🍷I've bought something. At the very least though, nothing like some of the other cash withdrawal games out there. The makers of this game have kept it really simple and I appreciate it! Thanks for a great game! 😊 I really enjoyed the single player version because of its simplicity, then ran into the competition version and I went crazy. It's a unique game where you compete against and even complete against yourself. It's one of those games that I can see and feel your ability to grow fast with practice playing. So many games get boring when it plays the same over and over again. I find it quite addictive, but in a fun way. Highly recommend it.
